

Kindergarten Science Power Standards

1. Properties and Principles of Matter and Energy

<p>1. Changes in properties and states of matter provide evidence of the atomic theory of matter</p>	<p>A. Objects, and the materials they are made of, have properties that can be used to describe and classify them</p>	<p>a. Describe physical properties of objects (i.e. size, shape, color, mass) by using the senses, simple tools (e. g. magnifiers, equal arm balances), and/or nonstandard measures (e.g., bigger/smaller; more/less)</p>
--	---	---

4. Changes in Ecosystems and Interactions of Organisms with their Environment

<p>1. Organisms are interdependent with one another and with their environment</p>	<p>A. All populations living together within a community interact with one another and with their environment in order to survive and maintain a balanced ecosystem</p>	<p>b. Describe how the seasons affect the everyday life of humans (e.g., clothing, activities)</p>
