EXPLANATION: INTRADISTRICT TRANSFERS

In July the state of Missouri was granted "ESEA Flexibility," otherwise known as a waiver of some of the requirements of the No Child Left Behind Act (NCLB). One of the requirements waived was the obligation to allow students in schools identified for school improvement to transfer to school buildings that were not so identified. However, if a student transferred to and attended a new school building prior to the 2012–13 school year, the student is allowed to continue attending that school until the student has completed the highest grade in the building. While the state and federal governments encourage districts to continue to provide transportation to these students, transportation is no longer required.

If the district does not intend to allow students to continue to attend schools to which they transferred under the school improvement provisions of federal law or intends to continue to provide transportation, this paragraph should be modified accordingly. Call MSBA for assistance.

For more information on the waiver, see <http://dese.mo.gov/qs/esea-waiver.html>.

MSBA recommends that copies of this document be routed to the following areas because the content is of particular importance to them. The titles on this list may not match those used by the district. Please forward copies to the district equivalent of the title indicated.

INTRADISTRICT TRANSFERS

All students must transfer between district schools when their residence changes to a different attendance area, unless exempted by the superintendent or designee. Further, the district maintains the ability to transfer students between schools as needed.

- 1.——Students with disabilities may be assigned to attend a school outside the student’s attendance area by the **Section 504** team or pursuant to the student’s **I**ndividualized **E**ducation **P**rogram (IEP). Administrators participating in these decisions will notify the admissions office as soon as the decision is made to place a student outside his or her attendance area.
- 2.——The superintendent or designee may direct the intradistrict transfer of students for the health, safety or welfare of the student, to maintain discipline and safety in the schools, to better meet the educational needs of the student or to address overcrowding in school.

~~Transfer of Pupils Within the Camdenon Public Schools~~

~~Transfer of a pupil from one elementary room to another within the Camdenon District will be granted only when there is evidence that the pupil or the school will benefit from such a transfer. If, after a transfer has been granted, principals find that transferred pupils are doing unsatisfactory work or are not living up to the terms agreed upon in the transfer, the matter should be promptly reported to the superintendent's office, and the transfer may be revoked. Principals may recommend that certain pupils be transferred from one school to another, but the final disposition of the transfer remains with the superintendent.~~

Voluntary Transfers to Schools Outside Attendance Areas

Students who have previously transferred to a school outside the student's attendance area due to school improvement measures mandated by federal law will be allowed to continue attending the school they transferred to until they have completed the highest grade offered in that school. The district will not **continue to** provide transportation to these students.

Students enrolled in a school ~~identified for school improvement or~~ identified as persistently dangerous pursuant to federal and state law may transfer to another public school within the district that has not been so identified. A student who has been a victim of a violent criminal offense on school property as defined by state regulation may, upon request, transfer to another public school in the district. The transfer will be allowed in accordance with law.

Otherwise, students may request to transfer to a different district school subject to available space and eligibility as determined by the district. Once a student has begun attendance at a school, he or she cannot transfer to another school until the next semester begins, unless the student's residence

changes to a new attendance area or unless otherwise ~~allowed~~ **required** by law. The parents ~~or~~ guardians must submit ~~their~~ request to transfer to the district school prior to the beginning of the new semester. Transportation will not be provided to students transferring to schools outside the student's attendance area, unless required by law.

Transfer of Elementary Students Within the Camdenton Public Schools

Transfer of a student from one elementary room to another within the Camdenton School District will be granted only when there is evidence that the student or the school will benefit from such a transfer. If, after a transfer has been granted, principals find that transferred students are doing unsatisfactory work or are not living up to the terms agreed upon in the transfer, the matter should be promptly reported to the superintendent's office, and the transfer may be revoked. Principals may recommend that certain students be transferred from one school to another, but the final disposition of the transfer remains with the superintendent.
