EXPLANATION: ANNUAL BUDGET

This policy has been revised for clarity. Information regarding tax rates was removed because it was confusing and is covered in more detail in policy DC.

Based on feedback from Board members, MSBA has also established a June 1 deadline for the superintendent to create a tentative budget and submit it to the Board. *This deadline is not required by law* and may be deleted or changed by the district. The deadline is designed to ensure that the Board has enough time to review the budget before adoption.

MSBA recommends that copies of this document be routed to the following areas because the content is of particular importance to them. The titles on this list may not match those used by the district. Please forward copies to the district equivalent of the title indicated.

X	Board Secretary	X	Business Office		Coaches/Sponsors
	Facility Maintenance		Food Service		Gifted
	Human Resources		Principals		Library/Media Center
	Health Services		Counselor		Special Education
	Transportation		Public Info/Communications		Technology

ANNUAL BUDGET

One of the primary responsibilities of the Board of Education is to secure adequate funds to conduct a quality program of education in the school district. The annual school district budget represents is a written document presenting the Board's plan for allocation of the available financial resources into an explicit expenditure plan to sustain and improve the educational function of the school district. It is a legal document describing the programs to be conducted during the fiscal year and is the basis for the establishment of tax rates for the district.

Budget Planning and Adoption

The planning and preparation of the budget is a continuing process. It must involve a number of people who have knowledge of the educational needs of the community and who can provide accurate data in regard to the financial potential of the district. Members of the Board, citizens, students and professional and support staff members should be involved in the planning process, which culminates in the preparation of the budget document. The superintendent will establish procedures that seek input from the appropriate people on budgetary needs and that consider the priorities established by the Board.

The Board designates the superintendent to serve as the budget officer of the district. As budget officer, the superintendent will direct the planning and preparation of the budget and will submit it to the Board for approval. Before creating the budget, the superintendent will consider the priorities established by the Board and seek input from appropriate persons regarding the needs of the district. The superintendent will present to the Board a tentative budget proposal for the following year no later than June 1 unless sufficient financial information is not available at that time to propose even a tentative budget. The superintendent will make revisions as directed by the Board and will present the final budget proposal before the new fiscal year begins, as provided by law.

The Board may revise the items contained therein and will officially adopt the budget in a time frame as required by law proposed budget prior to adoption and may make additional revisions, as necessary, throughout the year. Should the adopted budget require an increase in the tax levy above the authorized level that the Board may levy, the tax levy increase shall be presented to the voters for approval. The budget shall be appropriately adjusted if the voters fail to pass the tax levy increase. The Board will conduct at least one public hearing regarding the proposed budget and taxation rate.

Budget Components

The annual budget document shall present a completed financial plan for the ensuing fiscal year and shall include at least the following statutory requirements:

1. A budget message describing the important features of the budget and major changes from the preceding year.
2. Estimated revenues to be received from all sources for the fiscal year, with a comparative statement of actual or estimated revenues for the two years ~~next~~ immediately preceding, itemized by year, fund and source.
3. Proposed expenditures for each department, office and other classification for the fiscal budget year, together with a comparative statement of actual or estimated expenditures for the two years immediately preceding, itemized by year, fund, activity and object.
4. The amount required for the payment of interest, amortization and redemption charges on the debt of the school district.
5. A general budget summary.

Budget Expenditures

In no event shall the total proposed expenditures from any fund exceed the estimated revenues to be received plus any unencumbered balance or less any deficit estimated for the beginning of the fiscal year. Upon the recommendation of the superintendent, the Board will approve a system of internal accounting to ensure proper financial accounting of revenues and expenditures.

The adopted budget of the Camdenton R-III School District serves as the control to direct and limit expenditures in the district. Overall responsibility for assuring control rests with the superintendent, who will establish procedures for budget control and reporting throughout the district. All moneys received by the school district shall be disbursed only for the purposes for which they are levied, collected or received.

The total amounts that may be expended during the fiscal year for the operation of the school district are set forth in the budget. The total budgeted expenditure for each program is the maximum amount that may be expended for that classification of expenditures during the school year unless a budget transfer is recommended by the superintendent and is approved by the Board. During the fiscal year the superintendent may transfer any unencumbered balance or portion thereof from the expenditure authorization of one account to another, subject to limitations provided by state laws and approval by the Board.

The Board will review the financial condition of the district monthly and shall require the superintendent to prepare a monthly reconciliation statement. This statement will show the amount expended during the month, total (to date) for the fiscal year, receipts and remaining balances in each
