

Enhancement Grant Recommendation

LCTC Collision Repair Technology

September 25, 2016

Chief Laser Lock Measuring System

Sealed bids for Chief Laser Lock Measuring System were submitted in September 2016 to three vendors. The vendors also sent quotes for additional equipment approved by DESE with the use of 50/50 funds for the collision repair program.

ATI	\$39,950.00
Heartland	\$42,500.00
Sherwin Williams Automotive Finishes	\$43,000.00

Our recommendation is to accept the bid from **ATI** due to cost, and ATI has been very supportive to our existing collision repair program. ATI also offers support after the equipment is delivered. The Collision Repair program was approved through **DESE 50/50 funds** for a total cost of \$40,000 for a Chief laser lock measuring system. The District will be reimbursed 50% of cost.
