#### EXPLANATION: BOARD MEMBER OUALIFICATIONS

MSBA has revised this policy to reflect changes to Missouri law and to clarify the existing language. Please note that candidate qualifications are set by state statute, and local districts do not have the legal authority to add additional requirements or remove any of the requirements listed.

- In 2015 the Missouri Legislature passed House Bill 63, which reversed many of the changes made to the election laws applicable to school board members in 2014. The changes made to the election laws applicable to school board members in 2014. Ine governor vetoed this legislation, but then the legislature overrede the veto, making House Bill 63 law. A few months later, the legislature passed Senate Bill 104, which then added many (but not all) of these same election laws back into state statute and repealed some of the previous changes made to the election laws. This bill was signed the back the summer of the law. into law by the governor. This bill:
  - Put back into state law applicable to school boards the requirement that a person cannot qualify as a candidate for elective office if the person has been found guilty of or pled guilty to a felony or misdemeanor under federal law or a felony under Missouri law
  - Added the prohibition that a candidate cannot have been found guilty of or pled guilty to an offense in another state that would be considered a felony in Missouri.
  - Put back into state law applicable to school boards the requirement that a candidate will be disqualified from participation in the election if the candidate is delinquent in the payment of any state income taxes, personal property taxes, municipal taxes or real property taxes on the candidate's place of residence. If the candidate is a past or present corporate officer of any fee office (like a licensing office), that office cannot owe any taxes to the state either. Candidates must file an affidavit with the Missouri Department of Revenue as was required in the 2015 election.
  - Deleted a statute that was enacted in House Bill 63 that prohibited a person who had previously been employed by a district as the district's superintendent from running for school board.
- Due to a Missouri Supreme Court case that struck down a portion of state statute, there is no longer any requirement that candidates have paid fees assessed by the Missouri Ethics Commission to be eligible to run for office. However, candidates must have filed 2.

required campaign disclosure reports for all previous elections, or the treasurer of any candidate committee must have filed those reports on behalf of the committee.

- MSBA has removed language regarding training requirements and developed a separate policy on this subject, which is included in this update. 3.
- 4. MSBA has removed the reference to a "public servant." While it is true that school board members are considered public servants in the Missouri Criminal Code and therefore must be careful not to commit any crimes associated with being a public servant, this language has more to do with the Board member's ethical behavior once elected and seems out of place in this policy.
- 5. MSBA has added a section regarding the oath of office. Technically, Board members "qualify" for the Board by both taking the oath and signing an oath. Districts are encouraged to use MSBA's sample form, BCA-AF1.
  - MSBA has also made it clear that the Board expects both elected and appointed Board MSBA has not more there requirements. Some requirements technically only apply to eandidates who file for elected office, and an argument could be made that appointed charing and the second se elected or appointed.

In addition, MSBA has revised this policy to clarify that direct payment is the district's preferred method and that expense reimbursements should be kept to a minimum and used only in unique situations.

## EXPLANATION: TRAVEL EXPENSES

This is a NEW policy for the district's consideration. In an effort to reduce waste and prevent fraud, the federal government has implemented new regulations governing the use of federal frands. These regulations are often collectively referred to as Omni or the Omni Circular. Fonds. These regulations are often collectively referred to as Omni or the Omni Circular. Federal law now requires school districts and other recipients of federal funds to adopt specific policies and procedures as a condition of receiving those funds. Federal law also now requires school districts to have a Board-adopted policy on travel costs. Much of the information in this policy traditionally would have belonged in an administrative procedure, but districts must include the information in policy because the federal law requires a Board-adopted policy in this area.

The rules for payment of the costs for Board member travel and employee travel should be the same, so MSBA has included both in this policy and recommends that districts rescind policy BHD (included in this update).

Federal law does not dictate the specifics of this policy, and districts are encouraged to carefully review this policy and customize it to match the district's actual practices.
