EXPLANATION: EVALUATION OF PROFESSIONAL STAFF

This policy was revised at the request of the Department of Elementary and Secondary Education (DESE) as a way of helping districts understand that student growth must be part of the evaluation process.

This policy was also revised to reflect the requirements of House Bill 1490 (2014) that prohibits the sharing of evaluation results with state and federal agencies. MSBA has also included language from state law describing the essential principles that must be incorporated in all evaluation procedures and made changes in wording for clarity and consistency with standards approved by the State Board.

DESE has a wealth of information on incorporating student performance data into the evaluation process on its website at:

<http://dese.mo.gov/educator-growth-toolbox/student-growth-data>

The DESE website also has information on implementing the evaluation process (Effective Evaluation Implementation Rubric):

EVALUATION OF PROFESSIONAL STAFF

The Board requires a program of comprehensive, performance-based evaluations for the teachers and other professional staff members it employs in order to ensure high-quality staff performance that improves student achievement. Evaluation instruments used by the district will minimally reflect the standards for evaluation of professional staff **Essential Principles of Effective Evaluation** as adopted by the Missouri State Board of Education (State Board). Pursuant to these principles, the evaluation process should:

1. Use research-based performance targets aligned with state standards;
2. Establish indicators of performance articulated across differentiated levels with standards specifying expectations at all levels of practice;
3. Be aligned with the probation period for the educator as specified in state law and provide for the accurate and appropriate accumulation of performance data;
4. Use student growth in learning as a significant contributing factor in the evaluation of practice at all levels, using a wide variety of student performance measures;
5. Assess performance on a regular basis, providing timely feedback from multiple sources that promotes formative development at all career stages and supporting overall improvement;
6. Be designed to ensure that evaluators who collect evidence of performance and provide feedback are highly trained and objective, ensuring that ratings are fair, accurate and reliable; and
7. Be designed to guide district decisions regarding determinations of status, recognition, development, interventions and policies that impact student learning in the system.

Evaluation of Professional Staff Other Than Teachers

All professional staff members contribute toward the achievement of the district's students and the overall success of the district. To ensure continuous improvement and growth, the supervisors of professional staff members **or their designees** will set performance goals **in consultation with the employee**, conduct continuous performance evaluations and complete a written summative evaluation annually.

Teacher Evaluations

The superintendent or designee ("evaluator") will annually complete a summative evaluation of the performance of the district's teachers in the district using an evaluation instrument that incorporates the Essential Principles of Effective Evaluation as adopted by the State Board.

The primary purpose of the evaluation is to improve student performance by promoting the continuous growth of teachers in a manner that is aligned with the district's Comprehensive School Improvement Plan (CSIP) and, where applicable, building improvement plans (BIPs). Results of the evaluation will inform employment and compensation decisions, but may not be the only factor considered.

The superintendent or designee, in consultation with the district's teaching staff, will develop procedures and instruments for professional staff evaluation.
