Money-Saving Emergency Room Alternatives

Emergency Room (ER) visits are expensive and wait times are at an all-time high. Unless it's a true emergency, you may want to consider other options like urgent care centers and retail health clinics where you could pay as little as a regular doctor visit for care. Plus urgent care centers and retail health clinics are often open nights and weekends, and can save you money over high emergency room costs.

HealthLink.com has great resources to help you find care when you need it quickly and lower your out-of-pocket costs, including an informational video about where to get care, an ER alternative Find a Doctor tool and a list of common ailments that can be treated outside of the ER.
